New publication alert

- Is it published with all info?
  - YES: Add to spreadsheet and check the other criteria.
  - NO: Keep it in the queue document until full info is available.

Check/set embargo period if needed for AM.

- Add record with FT (if possible).
  - YES: Contact faculty for agreement. Signed and sent back?
    - YES: Do we have an author agreement?
      - YES: Add record with link to FT (if possible).
      - NO: Add record with link to FT (if possible).
    - NO: Add record with link to FT (if possible).
  - NO: Save FT if OA, or ask for AM.

End
Association of ABC (HbA1c, blood pressure, LDL-cholesterol) goal attainment with depression and health-related quality of life among adults with type 2 diabetes.

Shah BM1, Mezio DJ2, Ho J1, Ip EF4.

Abstract

AIMS: To determine the relationship between ABC goal attainment, depression, and health-related quality of life (HRQoL) among a national sample of patients with type 2 diabetes (T2DM).

METHODS: A retrospective, cross-sectional analysis was performed examining 808 non-pregnant patients ≥20 years old with T2DM from the National Health and Nutrition Examination Survey (NHANES) 2007-2012. ABC goals were defined as HbA1c<7%, BP<130/80 mm Hg, and LDL-C<100 mg/dL. Patient characteristics associated with ABC goal attainment were examined.

RESULTS: Overall, 23.7% of participants achieved simultaneous ABC goals. Severe depression was significantly associated with lower rates of ABC goal attainment compared to those with no depression (5.0% vs. 25.4%, p=0.048). ABC goal attainment rates were lower among females, Hispanic and non-Hispanic black minority groups, and patients with a duration of diabetes over five years, while increased visits with health care professionals were significantly associated with meeting all three ABC goals for patients with T2DM.

CONCLUSIONS: The relationship between simultaneous ABC goal attainment, depression and HRQoL is complex. Patients with T2DM unable to meet ABC goals may benefit from increased contact with health care professionals.
I am working with [faculty name] of the Touro College and University System (TCUS) to deposit electronic versions of [their] works in our institutional repository (http://touroscholar.touro.edu) for educational and research purposes.

I am writing to request permission to deposit an electronic version of the following article:

[insert citation here]

This request is for non-exclusive, non-commercial use only. Copyright notice, citation of original publication data, and a link to your site will be given.

Our repository is the institutional archive, maintained at the University Libraries, for research and scholarship emanating from the Touro College and University System. A single electronic version will be archived and become available for viewing by visitors to the Libraries' Touro Scholar site. For more information about the repository or its policies, please contact me at the email or phone below.

May we have permission to deposit an electronic version of this article? If so, may we use the publisher’s PDF?

Thank you for your consideration.

Carrie Levinson
